This is to certify that Mr. Anubhab Bose, Mr. Arkoprobho Paul, Mr. Biswajit Das, and Mr. Soumya Ghatak from the University of Hyderabad did their summer internship in 2022 with me. They worked on a project entitled 'Bootstrapping for Lasso with a case study'. They studied theory and performed simulation studies and real data analysis to compare various approaches on this topic. I wish them the best in their future endeavors.

Sincerely,

Arunabha Majumdar
